Senator Harding was busy conferring with Marion citizens who are helping in the arrangements. He was pleased to learn that the Caledonia cornet band will be on hand tomorrow. This is the band in which he played as a boy.

It has been augmented for this occasion into fifty pieces and is contending for the honor of playing on the Harding front lawn. The lawn has been covered with gravel. James Williams, Caledonia miller, has reorganized the band and declares it is the best in the world, bar none. The Senator used to play the trombon. OLD BAND READY. All military missions and relief organizations are preparing to evacuate Warsaw.

Some women already have been sent away and others are scheduled to likave in the next few hours. Those who are here after that period can move on an hour's notice. All belongings are packed and much of their heavy baggage is already on the way from Warsaw.

As for Americans, the plans center chiefly around the expected arrival of the transport Pocahontas due in Danzig in two days, to carry another contingent of Haller troops homeward. If necessary the vessel will be used 40 carry Americans fleeing from Poland. Lieut. Ewert now is in Danzig in charge of the arrangements.

American relief organizations already have evacuated Bialystok and the Red Cross today is shifting part of its headquarters from Warsaw to Cracow, whither the entire organization will move if necessity arises.

Miss Marie Brehm of California, first woman to be elected permanent chairman of a national political convention, relinquished the chair and placed Mr. Bryan in nomination.

The delegates immediately went into the usual post-nomination uproar with a parade, general shouting and whooping. After fiftees minutes the delegates finally realized that they had not yet actually nominated Mr. Bryan and proceeded to name him by acclamation.

Tired and worn from the hot all-day session and the previous demonstration, they gave only a few seconds applause when the nomination actually was made. Mr. Bryan's nomination was seconded by Nebraska, Florida, Missouri, Illinois, California, Wisconsin and Ohio.

During the parade, Mr. Howard remained aloof until some one shaved him in time. Later he walked out of the auditorium.

Tonight the delegates heard several speakers lambaste the Republicans and Democrats, and tell of what they termed "the wonderful success of the Prohibition party."

Tomorrow the delegates expect to elect the new national committee.

At Livingston the problem was almost altogether one of preventing the community from being swamped by an influx of Japanese farmers, the Congressmen were told, while at Turlock it appeared largely to be a labor question.

The 500 white workers idle at Turlock were members of the American Fruit Workers' Association and two-thirds of them were former service men. Harry Buchanan of Brawley, organizer for the association, stated.

The only Japanese labor employed in the past had been by Japanese farmers, according to Buchanan, but this year about 1000 Japanese were hired by both their own countrymen and by Americans. Unwillingness of American farmers to pay the wages demanded by American fruit workers was the cause of the change, he said.

vicinity of this city or on some vessel not far out at sea.

Both men apparently were beaten to death before the bodies were stripped and thrown into the water. Light cords were tied about the ankles and the chest of the dead man found last night, indicating that the body had been weighted down to make it sink. Wave action, it is believed, broke the cords.

Skin and fiesh had been stripped from the forearms with the purpose, the police think, of removing tattoo marks that might have led to identification.

The body apparently had been in

The body apparently had been in the water three weeks. It was that of a man between 40 and 50 years of age, five feet, seven inches tall, with black hair.

The other body, found in the bay last Thursday, was also nude and seemed to be that of a Japanese or Filipino.

MAY CALL FOCH.

The Premier announced that the British Ambassador at Berlin had gone to Poland and said it was possible that Marshal Foch would go there later.

It was to the interest of Great Britain and of Europe that Poland should not be wiped out, declared the Premier.

To test the good faith of the soviet government, he explained, it was decided at Spa to advise Poland to apply to Russia for an armistice.

Lloyd George said the impression received at the Spa conference was that Febrenbach and Simons, the German Chancellor and Foreign Secretary, respectively, were two perfectly honest and upright men who would do their best to fulfill the treaty obligations. Rectting the results at Spa, the Premier declared: The telegram sent to Mr. Bryan notifying him of his nomination follows in part:
"Prohibition National Convention nominated you by acclamation with great enthusiasm, in response to a flood of demands from people of all political creeds and from all parts of the nation. People are sick and disheartened over the situation in the dominant parties and millions are in revolt against both of them. We believe that we speak advisedly when we say that you face an unprecedented opportunity for good. A million volunteer campaigners and speakers will spring to your support. A hundred thousand college students can be organized to work for your election. The women are praying for such an opportunity as your candidacy affords.

"We have proof that the Germans have grappled with the problem of indemnity and are making a real effort to deal with it. There are schemes for raising money to enable Germany to pay, and there is no attempt to evade obligations."

Reverting to the Polish situation, the Premier said that England and France would supply the necessary means to organize and equip the 300,000 volunteers Poland has just raised. Mr. Eddy, who was 61 years old, Mr. Eddy, who was 61 years old, organized the American Steel Foundry Corporation, National Turbine Company, American Linseed Oil Company and numerous other large corporations and was a member of the Chicago law firm of Wetten, Matthews & Pegler. It is believed that the Mitten management will seek monetary aid either from the National City Bank of New York, or from the Dupont interests, who are said to have sought an entree into street railway circles for some time.

Replying to questions as to his faith in the ability of the present directorate of the concern to hundle is affairs competently. Mr. Mitten summed up the situation in a pithy statement. It follows:

"The car riders of Philadelphia may rest assured that the management will continue to function to the very best of its ability.

"The record of achievement by the Mitten management in overcoming seemingly insurmountable obstacles stands as an unmistakable index to the completion of the program adopted by the management."

Mr. Stotesbury went to New York today, it is said, to interview heads of the Morgan financial interests. Before leaving, it was learned he was about to dictate a statement for the consumption of the press. A telephone conversation with several of the Morgan leaders, however, restrained him, it was declared.

It is tactify understood in finangial circles here that the Morgan interests would view with pleasure any straight increase in the trolley fore in Philadelphia, seeing in such a rise an opportunity to hoost the rates of the New York Traction companies they control.

(BY A. P. MIGHT WIRE.)

COLUMBUS (O.) July 21.—The first act of the Republican National Executive Committee in session here today was to adopt unanimously a resolution urging the Republican members of the Tennessee Legislature to ask for ratification of the Federal woman suffrage amendment.

Members of the National Woman's party expressed satisfaction over this action and claimed to see an indication that Verment may yet be induced to ratify, as it was Earl Kinsley from Vermont who Introduced the resolution.

The committee discussed campaign plans, which included finances. The session lasted for more than three hours.

Neither Chairman Hays nor other members of the committee would discuss at any length governor the might have a statement on this subject later. Clarence Miller, secretary of the committee, said:

"The Governor is only trying to throw a little dust to cover up his own campaign expenditures."

A Smile, a Coat of Tan and a Bathing Suit Cut According to Conscience.

San Diego Beaches Inviting Care-Free Novelty in Swimming Garb

SAN DIEGO, July 20.—[Exclusive Dispatch.] Quality, not so much as quantity, is desired in the selection of women's bathing costumes this year, according to the edict that has gone out, and which is being adhered to by the disporting nymphs of the sands here. Bathing suits, whether abbreviated or voluminous with ruffles, are not interesting in themselves, according to local experts, it being only when well filled and in public use that they take on a significance of perhaps more than passing interest.

A group of mermaids selected quite at random a few days ago at one of the San Diego stretches of sand showed a variety that makes the beach colorful and gay beyond perhaps any year that has been experienced here. To the observers, which means all those present, it would seem that no two costumes were in any sense alike, unless it be the occasional girl chums who have dressed alike purposely. The beaches are swarming this year with more life and diversified humanity than ever in the history of these

SEIZE POWER, IS COMMUNIST CRY.

Letter Read at Conspiracy Trial is Rabid.

Chief of Party Declares the Workers Need New Order.

Defense Does Not Question Former Mayor Hanson.

CHICAGO, July \$1 .- In winding

CHICAGO, July 21.—In winding up its case against twenty members of the Communist-Labor party for conspiracy, the State, today, after a bitter fight with attorneys for the defense, succeeded in getting into the evidence a letter signed by William Bross Lloyd, chief defendant, asserting that it was time for the working classes to take over the government and industries "peacefully, if the rulers choose to give them up, by force if they do not make that wise choice."

This letter was addressed to C. Feichtmeler, secretary of the Socialist party, of Wausau, Wis. Mys. Rose Groves, who has been stenographer for Lloyd for seven years, was called to identify the letter, but refused to do so. The State, however, drew from her sufficient admissions to permit the letter to go into the records. The letter says in part:

"All through the war, even before our entry into it, the members of the National Executive Committee (of the Socialist party) have trimmed, dodged, compromised and hesitated, instead of sticking to the

of the Bolsheviki.

"The only thing the Socialists are concerned with is the question of power and the overthrow of the capitalists. No capitalist government will do anything for the working class unless the capitalist classing class unless the capitalist classing class unless the capitalist classing class of the compelled through fear of getting worse and more of it.

"It is time we tried a new deal and put in a bunch of men to organize the working class power to take over government and industry." Sole Hanson, former Mayor of Seattle, laments the fact that the defense dropped him like a hot coal without any cross-examination. He was loaded with a lot of facts he could not bring out in direct examination, but cross-examination would have opened the gates. The defense doubtless was aware of this and did not give him a chance.

The defense began this afternoon the presentation of its case, opening with a reading of the constitution and bylaws of the Communist-Labor party: No opening statement was made and the State is still in the dark as to what the line of defense will be.

MAIL SACKS STOLEN

A Removal Sale

We're getting ready to move into our new home at Sixth and Broadway and we're reducing our stock. This sale will create a sensation in Los Angeles! There is hardly a shirt in the whole lot we could buy from the manufacturers at the prices we have marked. Some would cost us even more than we are asking. You'll be wise to come early, at these prices they'll go pretty fast.

These are a splendid lot of shirts, including many Arrow Brand, at a very low price. Made of fine quality percales, crepe weaves and woven cords. Full cut, well made with soft, turnover cuffs. Fast colors. A wide assortment of patterns: sizes 14 to 18.

Beautiful quanty woven madras shirts in a variety of desirable patterns, neat and bold stripes and fancy madras weaves. Soft turnover cuffs. The class of shirts that are seldom seen in a sale. Sizes 14 to 18.

A doctor in the house all the time would be a good idea. Yet you can't afford to keep a doctor in the family to keep baby well or prevent sickness. But you can do almost the same thing by having at hand a bottle of Fletcher's Castoria, because it is a wonderful remedy for indigestion, colle, feverishness, fretfulness and all the other disorders that result from common allments that bables have.

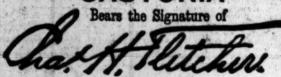

Fletcher's Castoria is perfectly safe to use. It is a harmless substitute for Castor Oil, Paregoric, Drops and Soothing Syrups. Children cry for Fletcher's Castoria, and mothers recommend it because they have found it a comfort to children and a mother's friend.

The identity of the man who escaped is believed to be known through identification by Santo Calaimie, victim of the fraud, of a picture was of a man named Arthur Billings, arrested in San Francisco in September. 1919, for petty larceny and vagabondare.

The three men and three women went to the home of Mr. Calamie, in Laurel street, Monday afternoon and, it is said, offered to sell him thirty cases of whisky for \$3000. Mr. Calamie, it seemed, did not want to buy, but finally agreed to let the men have \$1000 as deposit, provided the thirty cases were left for security. This done, the men departed.

Wonderful How Calotabs, the De-Nauseated Calomel Tab-let, Makes You Feel so Good the Next Morning.

The oldy-style calomel was the best medicine in the world and the enly thing that could straighten out a disordered liver, but it had some serious drawbacks. The griping and the sickening after-effects made many people dread to take fit, Now you can take calome; without the slightest objection. One Calotab on the tongue at bedtime with a swallow of water—that's all. No taste, no danger, no nauseu, no salts. Next morning your liver is clean, your system purified and you are feeling like a two-year old—with a hearty appetite for breakfast. Eat what you please—no danger.

Calotabs are so perfect that your druggist is authorized to refund the price if you are not delighted. Sold only in original solded packages, price thirty-five cents. All druggists now have Calotabs.—[Advertisement.]

It would seem to be high time that every newspaper, every pulpit, and the voice of every thinking citizen be raised in warning and protest against the orgy of our national extravagance, which if not checked must end in national ruin. We are working too little, and too much of that little is going into non-essentials. Herein may be the main reason for present economic conditions, now alarming and soon to be tragic, possibly.

ONLY THREE FATS

Properly Promote Growth in Children

HE medical profession have shown within the last three years, as a it of experiments in feeding young animals, that there are three kinds fats most conducive to growth of the young.

Of these three—namely, utter, cod liver oil, and egg olk—only one has both nortening and tissue building properties. That one is butter fat.

Other ordinary food fats possess shortening and food value. But they lack the vital qualities which promote growth and sturdiness in children.

COMING AND GOING.

During the year ending June 30 a total of 334,254 aliens sailed from Ellis Island to return to their native land. The incoming aliens for the same period were 314,633. There is nothing much to worry about. If who come in are willing to become good citizens all is well, and if we have lost ber of bad ones 'tis better still.

A stranger in our midst was in the cellar, at the house of an old friend sam-pling the home brew the other evening when the town had its 7 o'clock quake. As the house gently rocked on its foundations be set down his empty glass with a grin of satisfaction and exclaimed: "That's something like it! That stuff has got a real kick. It sure reminds me of the good old days."

The railroads have to pay their em-ployees an increase of wages averaging 21 per cent. It seems to be agreed that the shippers will pay at least 18 per cent of this in advanced freight rates. The good consumer will foot the whole bill in wind-up. The increase comes to \$600,-000 for all the lines and some of the railroad men still want to strike to make up the billion dollars that they were de-

MUCH DOING.

Good work in the police department is indicated by the annual report of Chief me showing police court fines and coltions averaging more than \$1000 a day and over twice as much as for the previous year. The value of stolen property recov ered by the detective bureau also averaged another thousand dollars a day, or more than 50 per cent of the value of the arti-cles reported stolen. This value of property recovered is more than five times grea er than for the previous year. The total year ending July 1. This was 40 per cent greater than for the previous year, alugh the increase in the personnel of the ree was but slight. No police department in the country makes a stronger showing, man for man, and yet the Los Angeles force is made the target of all the local alarmists and sensation-mongers. Kind

N HARDING'S HOME TOWN.

Marion, O., is to give a grand send-off to one of its most distinguished citizens to-day, when Senator Harding, editor of the Star and a well-known man about town there, is to register surprise when informed by a body of influential Republicans of something that happened in Chicago on

The old home town is to be en fete, so to speak, and the big whistle on the shovel factory is to give three sharp blasts in hon-or of the events. The old-timers who first knew the nominee when he blew the alto horn in the Caledonia Band and have spent much of their time since going to the de-pots to see the Erié, Hocking Valley, Pennsylvania and Big Four trains come in will be all dressed up, and the gang, now elderly men, who used to wander out to the water tanks with the future President will lend their presence to the assembly.

The flag will flutter proudly from the

peak at the top of the Marion Clubhouse, where the candidate used to play draw poker and Kelly pool, and the crowd will stand around on Prospect street and wonder why fate had passed them by—they had often sent the President-to-be home and could spot him any number of balls

We'll see a few of the well-known rest dents—Dan A. Frank, Jim Prendergast, (from whom the town park is named,) Dick Crissinger, Cal Christian, Grant Mouser, who has since been a member of Congress and judge of the Common Pleas Court; Hoke Donophan, Old Poc Sawyer, C. C. Fisher and all the barber-shop chord serenaders who used to smite the solomn watches of the night with-

"Sweet Adeline, sweet Adeline, For you I pine for you I pine."
Hold it, hold it, sing it again; that's good, etc.-they'll all be there.

But few of the boys knew the words, but they did hang onto the chorus like a con to sing, "My Bonnie Lies Over the Ocean," "Good-by, Lay-dees" and other thrillers!

And in the company to gather on the front porch that is destined to become historic there will be Dr. George T. Harding, father of the candidate, who will swap something with the Notification Committee they don't watch out; the "Missus," as the wife of the Senator is familiarly known; Miss Abigail Harding, a sister, who makes her home with the aged father; Dr. George T. Harding, Jr., of Columbus—and, of rse, all of the Christian family who live next door, who have a grandchild named

And what an outpouring there will be of the "I-Knew-Him-When" Club? The "I-Told-You-So's" will be there in platoons to tell those on the fringe of the crowd that they predicted the Senator would be President some time, dating back the guess to the day when the shovel factory began opera-

The famous Republican Glee Club of Columbus, whose conductor for years was Will H. Lott, the venerable impresario of this city and father of Harry Clifford Lott, well known in local musical circles, will be there; and the way they will sing "The Pilgrim's Chorus," "Oh, Hail Us, Ye Free," "Crowned With the Tempest." "The Winds Are All Hushed" and the newest editions of campaign songs will be worth going miles to hear.

Marion Star is published will be decked with flags; the printers will be given a half-holiday, and Editor George Van Fleet will have a double-leaded editorial teiling in glowing colors the honor the old town feels in the events of the day.

The notification comes on a good day for many of the housewives in Marion, for they will have the washing and ironing put away for the week and there will be plenty of time to set the salt-risin' for bread to be town lawns will be manicured to create a kled; and it would not surprise us if some to show how the "fire laddles" of the town can handle the blaze. It is more than surmised that the chairman of the Notification mittee will be told of the fine waffles in the old home on Mt. Vernon avenue. She may set out a "cold snack" for the visiting statesmen.

And Senator Harding's old pastor, Dr. T. H. McAfee, in charge of the Trinity Baptist Church down on South State street who was induced to go to Marion by the Presi dential candidate, will be there, and if he s true to form will wear his white vest and bis pompadour hair that makes him look so much like "Battling Bob" La Follette. This will be a great day for Marion-more important than when the old Hocking Valley Railway opened up its line in the town, and that was a grand old time, as anybody who ever lived in Marion will b

MORE SCANDALOUS IMMORALITY. The reports of Federal department are not always dry as dust. The Biologica Survey of the Department of Agricultur has just issued a documental report replete with shocking scandal. It appears that the birds of the air have become tainted with shameful immorality, following the example of their fellow-citizens of the United States The report declares that our erstwhile in cent feathered friends have developed an alarming taste for easy divorce, a highly regrettable contempt for the sanctity of marriage vows, and change their marital re lations with promiscuous irresponsibility The department suggests that the birds become gravely affected by the condi tions consequent upon the Great War, cerbirds, such as sparrows, showing a much greater depravity than others. Post tively nothing is sacred to the sparrow or the cuckoo, we are told; both tear the Sev enth Commandment to shreds. Even the stork, associated so peculiarly with sweet esticity, whom we have welcomed in our homes as a highly respectable friend, is reported as manifesting departures from

family virtue and decency.

No wonder the Archbishop of Melbourne, speaking before a meeting at Westminste ondon, on the subject of legitimatizing children born out of wedlock, scornfully pronounces against "approximating human nerations to the morals of the barnyard. It is all very well to insist that the birds have adopted their poor morals from us, but it might be well that the baleful influence is from the other side. Fashion notes

While stu-dents of conditions are copiously blaming will be threatened. the war for all iniquities, it would seen that they are overlooking a much more in sidious influence. Paris announces that "Feathers have at last come into their Shoes made of feathers at

\$350 a pair, hats to match, feathered bags, feather trimmings, feather fans and brilliantly enamelled feathered fewelry, in which the color schemes are utterly exquipite, form the chief equipment of the scart mondaine today." It is very significant, and it looks like a case for the Audubon So This society has hitherto epecialized in the "protection" of the feathered worldand if the department's report is correct this means that they have been protecting impropriety. And when one considers that the society is made up largely of highly respectable human beings of irreproachable morals it is obvious that the feathered sinners have taken a mean advantage of this sheltering cloak of unimpeachable propriety. Under the society's protection of their "liberty" they have evidently taken every "license" and have now spread their scandalous influence, via Ma-

lame La Mode, over the human family. We have often observed that the poster of a feather had a distinctly intriguing effect upon feminine human beings. one feather in a hat gave a distinctly pro vocative demeanor. And the greennor who slept on one feather remarked, 'If that was so darned hard, what must a bed full of 'em be?" Exactly. And if one feather on one hat could have such a proeffect upon otherwise modest wom anhood, what must a whole outfit of them achieve? One recalls with shockful reminiscence the gorgeous depravity of the Bab ylonian beauty in "Intolerance" decked en traly in sumptuous feathers.

We commend the matter to the Morals Efficiency Association, who should hold an immediate conference with the Audubon So clety and relegate this audacious and sinis can't go on blaming the war for everything.

REPUBLICAN OPPORTUNITY IN CAL-

There are few States in the Union in which Republican sentiment predominates to as high a degree as in California. There cratic in a proportion of about three to one, and nine legislative districts out of each ten are represented by Republicans. . Under such conditions one would expect to find California uniformly in the Republican column in Presidential years. But the facts are that California has not sent a Republican to the Electoral College since 1908, that she has not elected a Republican Senator since 1910, and that not more than half the Congressmen elected from California in the last eight years have been Re

Cunning politicians have succeeded in stirring up so much dissension in Republican ranks, in sowing such a crop of discords, that the contest between two wings of the party has recently been more em-bittered than that between Republicans and Democrats. Partisans in both wings have been bad losers; and the wing that has been beaten in the primaries has often refused to vote for the winning Republican Republican sentiment shines as high and clear as the sun in our southern skies; but clouds of envy and hate have intervened during the national campaigns and the voters got confused. It is not the number of Republican registrations, but the number of Republican ballots, that counts.

Campaigns having for their ostensible purpose the centering of Republican sup-port on Republican candidates have resulted in disintegrating Republican sentiment. instead. In order for President Wilson to carry California in 1916 it was necessary for as many registered Republicans to vote for him as registered Democrats. Excuses and explanations cannot alter the record. In Presidential years California is a doubtful State, not because Democratic feeling is

strong, but because Republican ranks are divided. If the jealousies of the last two rational campaigns develop anew this year another Democratic victory in California

Party unity is indispensable to party success. There must be unity in selecting the Republican Presidential electors, unity in selecting an able, patriotic and popular Republican nominee for each Congress dis-trict and unity in the selection and support of Republican candidates for the Legisla

Unity is the result of mutual abnegation People in both wings of the Republican party who would like to run things and object to seeing other people run things must not be too aggressive. It is Repub must be no ugly raps at Republican voters: sulted in kicking the State into the Demo We have frequently called attention to

the fact that the California election laws are fearfully and wonderfully made; but i is bootless to quarrel about the rules after game has started. In spite of those laws, California must be brought this year into the Republican column. To do this we repeat, popular electors must be named and popular Congressional candidates must be nominated. The men and women select ed must be representative of the people of the State or the Congress district. They

must not represent a single class or creed. It is unfortunate that Republicans are not ermitted to vote in the August prim for Presidential electors. Under the Calfislature meet in a convention in Sacramen o, adopt a platform and select the dates for Presidential electors. This law causes a confusion of State and national politics. Candidates for the State Assembly and Senate should be chosen for their knowledge of State affairs; yet these canditional electors and candidates for Congress must stand in California and select the committees to conduct the campaign.

Mr. Taft has pointed out that this com League of Nations when the President and the Senate are in accord. If Senator Harding is to be the next President it is a paramount necessity that he shall be supported by a Republican Senate and Congress. It through harmony and not through hos tility that the ideals for which 2,000,000 Americans fought and 100,000 died in the late war are to be attained. Unity in the government can only be secured through unity of action on the part of the Republican voters of the sovereign States. This is no year for self-seekers in Republican colitics in California. The candidates for Congress are nominated in the August primarles. Republicans of every Congress district should see that its petitions are filed putting the best man in that district in omination, and that he is given a support that will insure his success. Twelve years ago every Congressman elected from Cali-fornia was a Republican. If the Republicans of the State are true to their convitions and to their party the same result

can be secured this year.

We must keep in mind that the Republican campaign in California this year will be in charge of the Republican State Central Committee. This committee will be named at the Sacramento convention early in September. Only preliminary work can be done until the committee is selected and organizes. It would be a mistake to organize volunteer bodies now that would have to withdraw after the regular committee is named; and it would be a greater mistake to attempt to organize a volunteer committee which would divide responsibility with the Republican State Central Committee. Mutual suspicion and divided responsibility made the Republican defeat of 1916 pos-

sible. The rank and file of the Republican party in California are loyal to Republican candi dates and Republican ideals. But a good army is often defeated by bad leadership and divided councils. If Republican leaders will unite, forgetting the rancors of past campaigns, Republican success in Califor-

JAZZ EXCORIATED.

BY LEIGH INGALSBE,

In Western Music Trades Journa A few days ago a condescending with a novel and an amusing slip of pasteboard which at first glance resembled a "Joker"-such as "run wild" in our western poker decks. and such as our distinguished editor, Mr. Newton, might carry in his sleeve when entering the clubrooms. Well, when I perused this card more closely I at once understood that the "joker" was on me, for the inscription was as follows: "You

Damned Fool-This Ain't Your Hat." I was then informed that I should wear this card in my hat band, and no one would steal it—(meaning my hat.) My familiarity with western vernacular and traditions prompted me to assure my friend that "any varmint" that was mean enough to steal a 'hoss' was also 'ornery' enough to steal the brand"—so I did not place much confidence in his logic. Nevertheless we denizens of the "wild and woolly West" are slow to "start a row," so I put the card in my hat to show a friendly acceptance of his benevolence and to get the proper "kick" out of such "asinine dome robbers" as might be caught stealing my hat or attempting to leave a better one in its stead. wear this card in my hat band, and

stead.

Now, excuse me, but when I hear some poor, deluded "bird," or "fish." relieving his "pent up" chest with such melodramatic expressions as "I just love 'jazz.' it's such wonderful music," I snicker with pity and think of that little card in my hat think of that little card in my hat band, and am almost forced to say. "You Damned Fool, 'jazz' isn't mu-

sic."

However, I refrain from portraying my thoughts audibly for fear that this "amphibious bird" or "lancivious fish" may, through abashed astonishment, awallow the "doghead" cane or the diminutive cigarette butt which generally always recline in the pursed lips of all "birds," or "fish," of his genus, thereby causing him to be stricken with "jazzstritis" or "jazzophobia," two new and perfectly incurable diseases.

And now, gentle reader, allow me And now, gentle render, allow me to impress upon you that "jazz" is not "music" any more than is "fifthy sewage" liken to "delicious honey."

The word "jazz" has no place in the English language and is more be fitting to the vocabulary of a "drunken Boche," and this expression "jazz." to persons who think as I do, is fast becoming the most tiresome and despicable expression enunciated by a human being.

It is my purpose to record most accurately the opinions and expressions of sane, sensible people with whom I have conversed, some of the best and biggest people, educationally, musically and morally, to know their opinions about "jazz." I am

their opinions about "jazz." I am not paid by "jazz" propagandists or conscienceless "jazz" publishers conscienceless "jazz" publishers (this fact is quite evident,) and it is simply in answer to such paid "jazz" articles as I have read that I am attempting to record the opinions of a better class of people, and I am inspired to unhesitatingly and unflinchingly condemn publicly those in our midst who would wilfully force upon us a series of relentless noises to purposely depict the most force upon us a series of relentless noises to purposely depict the most degenerating and despicable moans and screeches or inharmonious sounds as would openly insult all decent intentions, to purposely disintegrate and destroy our accepted proper standards of decency and morality as pertaining to what has becaused been known to us as any heretofore been known to us as mu

"Jazz" is an epidemic—a disease "germ" which permeates the minds and actions of the afflicted in the same relentless manner as the dreadful "Spanish influenza." and its harmful inroads are felt in every walk of life as it attacks the brain

cells, causing all kinds of appalling results and kindling all kinds of startling impulses in the afflicted. "Jazz" is the retrogression of our moral standards into the slums of "putridom" and the aban-don of self-respect into the pitfalls of obscenity, where when once lost

formed by the most ignorant and uncouth savages, through the bestial performance of inharmonious and obnoxious noises, which are both animal and sensuous, rather than civilized and elevating in their nature.
"Jazz" is a licensed crime, perpetrated with contemptible impunity by the "jazz fiend" at the bidding of his master, the publisher and ex-

plotter of musicless rubbish—to the disgust and discomfiture of all chear-minded and right-thinking people. The "jazz" epidemic extends far beyond its contamination of our mu-sical standards; it spreads like rag-ing flames in all fields of human en-deavor. It is the "jazz" spirit which causes young girls to calcinine their faces with a "blue-moon" ef-fect; to frizzle their hair like the aborigines of darkest Africa and to brazenly display silken hose to the knee without batting an eye or

blushing.
"Jazz" is the password to the gates of moral abandon, physical ac-bauchery, bedlam and pandemonium. As hell is paved with good inten-tions, so is the highway to deneger-acy paved with "jazz."

Sunset Hills Crack Shows Fine Work With Iron.

of Today's Card. BY HARRY VARDON.

[EXCLUSIVE DISPATCH.] SHAWNEE ON THE DELA-Barnes of Sunset Hills, your western open and professional champion.

won the annual Shawnee open tournament which began here yes-terday morning and closed this afternoon. His gross score for the 72 holes was 287, five strokes under par, six better than the gross score of Edward Ray, the runner-up and two strokes over the score turned in by himself when he won the same

two strokes over the score turned in by himself when he won the same tournament last year.

Barnes turned in a gross daily score of 144 yesterday, having a 72 for the morning and the same good score for the afternoon. Par for this course is 73. This morning he went out with a great 33 and covered the second nine holes in 28, for a total of 71.

In the afternoon he and Ray traversed the course together, followed by a gailery of a thousand or more. Brilliant play featured the rounds in the first hole, becoming 1 up by play, while Barnes lost a stroke. On the second, Barnes lost another stroke and Ray got a par 4. Ray ran down another birdle 3 at the fourth hole. Barnes got a birdle 4 at the sixth and a birdle 3 at the next one, but until the turning point he had a 37, one over Ray's score.

LOSES A STROKE.

LOSES A STROKE. By losing a stroke at the thirteenth, Ray allowed the match to become squared and so it remained until the seventeenth. Here Ray hooked his bail out of bounds from the fairway. His second try was more successful, but not quite so good as that of Barnes, who was getting longer drives. Barnes made the hole in a birdie 4 and was 1 up on play. They halved the last hole of the tourney, which was par 3.

par 3.

That Ray played consistently and well may be seen from his cards. Three rounds he scored even par which is 73 for the course. Yesterday afternoon he made 74.

ABLE TO FOLLOW.

ABLE TO FOLLOW.

I was again able to follow along in the galleries today, for my twisted thumb is well rested, and will be able to carry me through the exhibition best-ball matches at Fox Hills tomorrow, where Ray and I are to play Tom Boyd, the Fox Hills professional, and George Frotheringham of Richmond.

I saw much sparkling play during these two days. I was very much interested in the play of Barnes. His deadly work with the fron is worth taking into account because the Inverness course, at Toledo, where the open championship will be held next month, calls for fine iron play.

OLIVER COREY GREAT JUMPER.

(EXCLUSIVE DISPATCE.)
BOSTON, July 21.—Withou question, Oliver Corey, the 17-year-old running high jumper, will be a member of the United States Olympic team which comes mighty near establish-

ing a new record for juveniles making good their kid dreams. He carries the silks of the Lo Angeles A. C., but is a high

school athlete.
At the Stadium last Saturday, Corey cleared 6ft. 2 1/2 ln. yesterday afternoon in further trials and before an interested crowd of spectators, including "Pooch" Donovan, the noted

coach of the University of Southern on a business trip. Gloomy owns a confectionery shop in the northern burg which has been running down at the heels. He intends to tinker with the gizzard of the thing to get it buzzing merrily again.

"About 6 months ago my father was very sick with his stomach, which had been troubling him for several years. Three doctors said he had cancer and one said it was gall stones—all agreed an operation necessary, but on account of his age I was afraid to risk it. I told a friend about it who said his wife had been through the same trouble and had been cured by taking Mayr's Wonderful Remedy. I at once bought a bottle for father and he is now as strong as a bear and can eat more ham and cabbage than any 3 men." You may seek the reason in rational eating and drinking.

Coffee and tea must always be limited in the amount any man may safely take, because of the unfortunate effect of caffein and theine upon the central nervous system, upon the heart action and the kidneys, and their tendency to cause indigestion.

Schlitz, the famous cereal drink, may be taken freely. Substitute it in summer for iced tea, and note how much steadier your nerves are. Schlitz promotes clear skin, sparkling eyes, regular heart action and good digestion.

Schlitz is made pure—aged in glass lined tanks, cooled in filtered air in plate glass rooms, every bottle is sterilized by the Pasteur process, and the Schlitz Brown Bottle protects its purity till it reaches your glass.

Cushion TruckTires

Many truck tire problems in many lines of business are answered by Firestone Cushion Tires.

They have added cushioning power needed for proper protection to your load and truck. They have the wearing strength needed for maximum mileage.

12% to 27% More Rubber

Firestone Cushion Tires have a greater volume of material. That is one reason why they ride easier. It is obvious, too, that this means longer wear. The extra wide thread provides approximately 20% more area of road contact—giving firmer traction under all conditions.

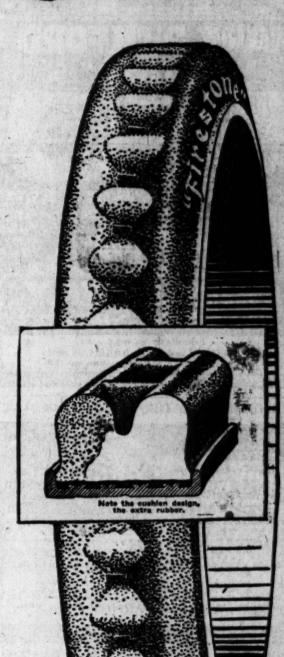

300% More Efficient in Heat Radiation

Overheating is a common danger to truck tire equipment. But Firestone engineers have evolved this special Cushion shape that lessens the strain through a different flexing of the rubber and gives a greater surface for heat radiation.

Any Truck Immediately Equipped

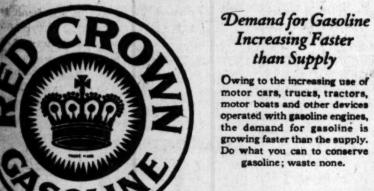

Firestone Cushion Tires are built to fit any S. A. E. base. No wheel changes necessary. The nearest Firestone truck tire dealer can apply them to your trucks and trailers without delay or added expense.

If you want resiliency plus extra-long wear, and if you want the practical economy of most miles per dollar, put on Firestone Cushion Tires. Made in all sizes.

FILMS LURE BARRIE.

WILL AID PARAMOUNT TO FILM "PETER PAN."

By Grace Kingsley.

Just how James M. Barrie was lured into the picture-making world is one of the thinga about which you will have to inquire of that astute gentleman, Jesse L. Lasky. That the famous writer has been so lured was the jet of one of the most significant and important announcements which has ever been made in picturedom, and which was sent out yesterday from the Lasky studio. Mr. Barrie is, in fact, to come to America te aid in the filming of "Peter Pan" by the Famous Playere-Lasky organization. The announcement was made by Jesse L. Lasky, vice-president of the company, whe has just arrived in New York after a stay of several weeks in Europe.

Lasky, vice-president of the company, whe has just arrived in New York after a stay of several weeks in Europe.

Whether or not Maude Adams will play the title role which she created on the stage is, of course, one question agitating not only the hearts of all fans and theater-goera, but evidently the Lasky efficials themselves, since Mr. Lasky says that he is not at ilberty to state whether she will or not.

Not only is Mr. Barrie to come to picturedom for the purpose of seeing that every detail of "Peter Pan" is exactly to his liking, but he has written a story especially for the screen which Mr. Lasky brought with him.

Mr. Barrie is not the only English author whom Mr. Lasky was able to engage. No less persons than Arnold Bennett, Edward Knobiauch and Compton Mackenzie have been signed by him to write for Paramount, and are to come to America for the purpose, and in order to study ecreen technique. In addition, H. G. Wells is to adapt several of his own books to the screen for this company, while Henry Arthur Jones, noted British playwright, will, in a few weeks, bring over a new screen play.

Other English authors who will write for Paramount are, according to Mr. Lasky, E. Phillips Oppenheim, who will do a series of stories; Robert Hichens, E. Temple Thurston, Max Pemberton and R. C. Carton. Many of these pictures, it is stated, will be produced in the Famous Players' Studio in London.

"Are they going to keep pigs!" exclaimed the horrided neighbors. And while impromptu indignation meetings were held up and down the block among outraged house-keepers the lone piglet responsible for the excitement continued his squealing, but with the noise shifted. This time it came from the next block, where Tod Browning lives. The shift occurred on the director's birthday and it turned out the pig was a present to Browning on behalf of the "Outside the Law" company, before whom he had incautiously expressed his deep longing for a porker, in order to do some ranching on a small scale.

And now Browning has to keep his word and buy a ranch.

Nothing in a Name.

What's in a name? Anyhow, there's nothing in the name "fireless cooker," take it from Mme. Doraldina, Metro star.

Mme. Doraldina turned the preparations for dinner over to a new fireless cooker yesterday aftermoon after being assured that it would handle every detail of the introduction of her guests. Then she went out for the limited drive permitted by the gasoline famine. Half an hour later T. Roy Barnes, who occupies an apartment in the building at 1851 Argyle avenue, just below that of the new Metro star, glanced at the Paragon studios. They will entraîn Sunday.

She has played a madonna, a society vampire, an aviatrix, a comedy queen and others, and her next picture, work on which will be commenced next week, will be Mrs. Humphrey Ward's famous story. New York advices indicate that the used car market is affecting motor and tire shares by a roundabout route; a feeling which is shared by analysist in Los Angeles.

A large number of cars were sold during the hectic days when everyone had money, and everyone seemed to feel that saving was a misdemeanor if not a felony. So they bought motor cars. Now they bought motor cars. Now they need the money for other purposes and are offering the cars for sale, with the inevitable result that the market, especially in eastern centers appears to be glutted.

COLUMBIA TRUST COMPANY, NEW YORK, TRUSTEE

For information regarding this issue and the business of the Company, we refer to a letter, dated July 19.

1920, from Mr. E. L. Doheny, President, some of the items of which he has briefly summarized as follows:

SECURITY: 'To be secured by a first mortgage on a fleet of 10 steel tank steamships, aggregating about 100,670 tons dead-weight capacity, providing marine transportation facilities for the Mexican Petroleum Co., Ltd., of Delaware. Approximately 71% of the total outstanding Capital Stock of the latter company is owned by the Pan American Petroleum &

EQUITY: The Company's outstanding Capital Stock at current quotations represents an equity of over \$125,000,000. This issue, together with other obligations aggregating \$3,978,813, will constitute the only funded and mortgage debt of the Company and its controlled companies.

EARNINGS: Consolidated net earnings of the Company, including the proportion of undivided profits of controlled companies applicable to the Parent Company, were as follows:

Year.		Amount.
	120	 Contract of the Contract of th

These consolidated net earnings for 1919 were equal to over 91/2 times the annual interest on these \$10,000,000 Bonds.

CONVERTIBLE: Convertible into the Company's Class "B" Common Stock at \$145 per share, i. e., at the rate of \$2900 face amount of Bonds for \$1000 par value of said Class "B" Common Stock with provision for a reduction of the conversion price under certain conditions if additional Common Stock or Class "B" Common Stock shall be issued or sold at prices lower than \$145 per share.

SINKING FUND: Company will provide a sinking fund of \$1,050,000 per year payable in semi-annual installments commencing February 1, 1921, for the purchase of these Bonds at not over 100 and interest. In lieu thereof the Company may deliver Bonds of the issue at the current market price, but not exceeding 100 and interest, to the extent that, within 30 days thereafter, Bonds are not available for purchase at 100 and interest, the Company may authorize their purchase up to 105 and interest, or may require the return of said unexpended balance, upon subjecting to the mortgage additional tank steamships at the rate of \$100 per ton D. W. capacity. Credit is to be allowed the Sinking Fund by reason of Bonds retired by conversions.

The legal proceedings in connection with the issue are being passed upon by Messrs. Cravath & Henders and Messrs. Kellogg, Emery & Cuthell, New York.

In the first instance, interim receipts or the Companny's temporary Bonds will be deliverable when if, issued and received by us.

TRADE WITH RUSSIA.

The recent State Department order lifting the embargo on trade with soviet Russia, although it will not result immediately in any decided change in trade relations between that country and the United States, stands out as the most absorbing foreign trade development of the last fortnight, according to the current issue of the Guaranty Trust Company's foreign trade review, American Goods and Foreign Markets.

"Commercially, the State Department's action probably means little at this time," the bulletin says; "politically it can be taken as a farsighted policy which may react an and ultimately weaken the Bolshevist influence in Russia. Soviet authorities have continually held that their failure to bring relief to the Russian people has been due to the Allied blockade against trade. With the embargo lifted, one of Bolshevism's chief excuses will be shattered and the Bolsheviki will lose one of their most formidable means of foreign propaganda.

STORY OF A FIVE-DOLLAR BILL.

STORY OF A FIVE-DOLLAR BILL.

On July 31, 1833, Horace Smith deposited \$5 in the Dedham Institution for Savings, and in a long period of years this lone \$5 bill went on accumulating interest. November 12, 1912, the holder of the bank book withdrew from the bank the sum of \$112.47 and June 8, 1920, closed his account with the bank, taking out the balance of \$134.46.

The only money ever deposited to that account in the bank was the original \$5; all the rest grew from the interest that accumulated as the years passed, until the sum total in the bank amounted to more than fifty-six times the total of the original deposit. Had no money been withdrawn until the account was finally closed, the sum that would have been taken out would have totaled \$381.93.—[Dedham, Mass., Transcript. STORY OF A FIVE-DOLLAR BILL.

A Frank Statement

N.W. Corner Fifth and Spring Sts.

They knew that the farm loans made by the Government were under this pian and they investigated several large financial institutions of the East which also had loaned millions of dollars under this pian, and achieved marked success. The result of their investigation convinced them that the AMORTIZATION PLAN is as far ahead of the straight mortgage loans as is the electric light to the candle dip.

Money, when loaned under a STRAIGHT MORTGAGE, ties up the en-tire principal for the full period of the loan. Consequently, the lender can only ear: SIMPLE INTEREST.

When loaned under AMORTIZATION, COMPOUND upon COMPOUND interest is earned, because under AMORTIZATION a part of the PRINCIPAL AND INTEREST is paid in monthly or annual installments, thus the payments are available for reloaning. Under a straight loan the security remains the same, whereas, under AMORTIZATION each payment decreases the loan while increasing the security, as no part of the property is released until the loan is fully paid. Because of the above plus other important factors, they caused to be formed the UNITED MORTGAGE & LOAN CORPORATION.

Additional capital is required to take care of the numerous applications that are being received.

The future possibilities for SAFETY of PRINCIPAL, LARGE RETURNS, together with enhancement of value of the shares are most ASSURING.

It is truly a corporation "of, by and for the people," as all are ON AN EXACT EQUALITY.

Mortgage trust certificates issued by the Cudahy Walnut Land Company make the investment of funds in first mortgages a comparatively easy and convenient matter. First because any amount can be invested—the denominations are \$1000, \$500 and \$100. Second, because new funds becoming available can be invested in the same security without delay until the desired amount is accumulated. Third, because it is convenient to collect the interest, it is payable quarterly by coupon at the effice of the trustee, the Citizens' Trust and Savings Bank. Fourth, because the maturity is better than the ordinary mortgage; six years is an excellent term for a mortgage security. Eixth, the property securing the mortgages is better value for the loan than is the ordinary mortgage available te the average investor. Seventh, all of the details of the loan, such as certificates of title, insurance policies, etc., are attended to by experts much more carefully than it is possible for the average investor to do for himself. Eighth, in addition to the ample security of the mortgages themselves the payment of interest and principal is guaranteed by the Cudahy Walnut Land Company, which insures prompt payment and avoids the usual delay of a few days or a few weeks in the payment of interest, which often occurs with the ordinary individual mortgage, however good the security may be. Ninth, all of your valuations can be made at one time. You can inspect every piece of property covered by a mortgage in a half day, make your own appraisements and be through with the job, or if you are familiar with general values we have ample data in our office to convines you without inspecting the property. Tenth, because every mortgage covers a modern dwelling, built within the year, most of them eccupied by their owners as their homes.

We believe we are offering an ideal investment. The interest yield—seven and one-half per cent—is as high a yield as is possible with a security of its class. We will be glad to show you.

JACK JOHNSON FEARS WHITES.

Changes Mind About Being Routed Through South.

Greeted by Many of His Race as He Faces Court.

"They Are Treatin' Me Fine," Says Big Fighter.

Jack Johnson, the colored pugilist, will leave at 10 a.m. today for Chicago over the Santa Fe—not over the Southern Pacific, as was originally intended, as Jack fears white vengeance in the Southern States—for surrender to the Federal authorities of the First District

States—for surrender to the Federal authorities of the First District of Illinois as a fugitive from justice on a Mann Act charge. He will ge East in the custody of Deputy U. S. Marshal Bassett and his brother. Eugene Bassett.

Johnson had consented to the Southern Pacific routing but late yesterday he told the Federal officers that he had thought it over and did not care to be routed through Texas and Louisiana and on north.

As it was known that Johnson would be in the Federal court to consent to his removal yesterday morning, there was a large contingent of the colored race on hand long before he was brought to the Federal Building by Deputy U. S. Marshal Walton.

As the big fighter came into the room he was greeted effusively on all sides by the members of his race. One colored man, wearing a tall silk hat of the vintage of 1861, along frock coat, and carrying a cane that had seen better days, was the leader of the handshaking crowd, and he wished Johnson good luck in his dealing with the Chicago courts. Another aged negro, who looked a great deal like the old vignettes of Uncle-Tom that we used to find on the table in the old-fashloned parlors, "lowed" Johnson would have no trouble getting away frem the authorities in Chicago.

Johnson sprawled down in a seat, puiling the cuffs of his shirt so that the stripes would show, balanced his last summer's straw hat on his hand, gave his kid gloves an extra twist, and took his ease while Judge Trippet called "United

when the drug case was disposed of Judge Trippet called, "United states vs. Johnson," and as the big ellow heard his name he stood up.

States vs. Johnson," and as the big fellow heard his name he stood up, gave his yellow tan shoes a shake, threw back his shoulders, and advanced to the bar of justice.

Asst. U. S. Atty. Green stated that Johnson had been held for removal ta Chicago by U. S. Commissioner Andrews of San Diego; that the defendant had waived the services of an attorney and was ready to abide by the order of the court.

"Do you understand the proceedings," asked Judge Trippet.

"Yes, sah," replied Johnson, smiling at Green. The formal removal onder was then presented to Judge Trippet for his signature, and the episode in a single reel was over.

"Come on, Jack," said Deputy Marshal Basset, and Johnson shuffled out of the room, the colored visitors crowding around him, everyhody wanting to take the hand that had put the kibosh on Jim Jeffries that hot Fourth of July in 1910.

"They suttinly are treatin' me fine," said Jack as he disappeared down the elevator in his trip back to the County Jail.

He had his straw hat set jauntily on the back of his head, and eupreme satisfaction was shown in every lineament of his big, black countenance. He was again in God's country.

ene of the best-known and equipped steamship men in the country, has been appointed general manager of the Los Angeles Steamship Company, which has purchased and will operate the steamers Harvard and Yillo as its initial units.

The anneuncement of the appointment was made yesterdoy by President Fred L. Baker and Secretary Erle M. Leef of the campany, following receipt of a telegram from Mr. Frey stating that his reagnation from the Emergency Fleet Corporation had been accepted, effective August 16. He will assume his new duties immediately thereafter, although he will be in Los Angelos about the first of the month for a conference precedent to actively taking over the important work incident to the establishment of actual service by the company.

Before the war Mr. Frey was general manager of the Pacific Mail Steamship Company, and was actively connected with the operation of the China Mail, as well as being assistant general manager of the Associated Oil Company. He has made a long and comprehensive study of Pacific transportation conditions.

sheet, a blanket and a raincoat were wrapped about it.
Detective Lopez of the San Diego police department learned yesterday that a man and a woman, the latter of whom seemed to be very ill and was perhaps dead, were seen in a rented automobile last June 24, near the spot where the grim grave was discovered last Saturday. Every effort is being made to learn the man's identity.

EXCLUSIVE DISPATCH.;

SAN DIEGO, July 21.—That the woman whose body was exhumed in Mission Valley last Saturday died of septicaemia, or septic poisoning, caused by a criminal operation, was the report tonight of doctors who have been working on the case for three days. The stomach was thoroughly analyzed by Dr. H. A. Thompson, bacterologist, assisted by Dr. J. J. Shea, autopsy surgeon. No evidence was found of the administration of poison.
